RETURNING REAL-TIME TEMPERATURE MONITOR AND THERMAL SHIPPING CONTAINER

The thermal shipping container may be used as temporary storage for up to 30 days from delivery.

After use, the thermal shipping container, including the temperature-monitoring device, must be returned to the supplier to help Pfizer fulfill its commitment to reusable resources.

After the thermal shipping container is no longer needed, you should discard the dry ice.

Take necessary precautions by reviewing the Dry Ice Safety Data Sheet, and consult with your Occupational Health Department.

To discard, open the thermal shipping container and leave it at room temperature in a **well-ventilated area**. It will sublime from a solid to a gas. **DO NOT leave dry ice in an unsecured area. DO NOT place in drain or flush in toilet. DO NOT dispose in trash. DO NOT place in a closed area such as an airtight container or walk-in cooler.**

When the thermal shipping container is ready to be returned, and all the components are inside, seal it with tape. A preprinted return shipping label will be included inside the thermal shipping container or already adhered to the inner flap of the thermal shipping container. When coordinating the return of the **Softbox** thermal shipping container, apply the preprinted return shipping label over the existing shipping label. When coordinating the return of the **AeroSafe** thermal shipping container, follow instructions on the inner flap of the thermal shipping container to ensure the return label is facing outside. **You can contact the carrier identified on the return label to arrange the return.**

Discard empty vial trays as medical waste and vials in sharps containers so they cannot be reused.

Elements Required for Return

Softbox:

- Temperature-monitoring device
- Foam lid (remains attached to box)
- Dry ice pod
- Box that holds the vial trays

AeroSafe:

- Temperature-monitoring device
- Foam lid
- Dry ice pod
- Box that holds the vial trays

Note: Ensure the Dry Ice UN1845 markings and diamond-shaped Class 9 hazard label on the thermal shipping container are covered by placing a blank label over them in preparation for the return, as the container no longer contains dry ice.

Blank sticker labels to place over the UN1845 markings can be found on the back page of the Shipping and Handling Guidelines.

**For assistance on returns,
you can contact:**
